

# 2015

## Improvement Design Standards City of Dundee, OR

**ADOPTED BY  
DUNDEE CITY COUNCIL  
AUGUST 21<sup>ST</sup>, 2015**

Department of Public Works  
City of Dundee, OR

Original Prepared by Wallis Engineering

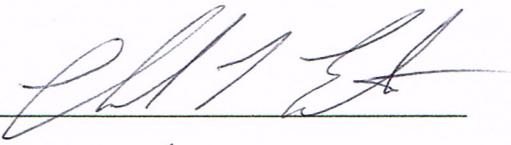

**CERTIFICATION BY ENGINEER**

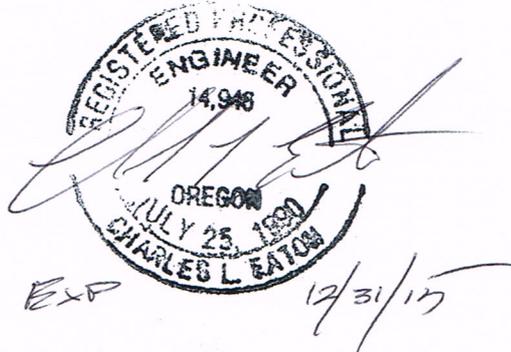

**DUNDEE, OREGON  
DUNDEE IMPROVEMENT DESIGN STANDARDS**

I hereby certify that the Dundee Improvement Design Standards were prepared by or under my direct supervision and that I am a duly registered Engineer under the laws of the State of Oregon.

Professional Engineer's  
License No. OR 14,946

Signed: 

Date 8/21/15

# Table of Contents

<b>Division 1: General</b>	<b>1-1</b>
<b>1.1 General Requirements for Public Improvements</b>	<b>1-1</b>
A. Applicability	1-1
B. General	1-1
C. Engineering Policy	1-2
D. Contracting Policy	1-2
E. Abbreviations, Definitions and Terms	1-2
F. Location of Utilities within Right-Of-Way	1-9
G. Providing For Future Development	1-10
H. Permits	1-10
I. Approval of Construction Drawings Required	1-12
J. Submittal Requirements	1-12
K. Special Design Problems	1-19
L. Construction Permit Application	1-19
M. Construction Permit Fees.	1-20
N. Construction Agreement & Performance Guarantee	1-20
O. Conduct and Progress of the Work	1-21
P. Adherence To and Exhibition of Permits	1-22
Q. Expiration or Suspension of Permit, Stop Work Order, Appeal	1-22
R. Notice of Completion of Work, Final Inspections	1-23
S. City Policy for Accepting New or Reconstructed Streets and Public Utilities	1-26
T. Penalty, Continuing Violations	1-27
<b>1.2 General Material Requirements</b>	<b>1-27</b>
<b>1.3 Construction Submittals</b>	<b>1-28</b>
A. General	1-28
B. Products	1-29
C. Execution	1-34
<b>1.4 General Construction Requirements</b>	<b>1-35</b>
A. Preconstruction Conference	1-35
B. Safety Requirements	1-35
C. Protection of Property	1-35
D. Inspection	1-36
<b>Division 2: Water</b>	<b>2-1</b>
<b>2.1 Design Criteria</b>	<b>2-1</b>
A. Applicability	2-1
B. General Requirements	2-1
C. Water System Capacity	2-2
D. Fire Flow Requirements	2-2
E. Head Loss Calculation Requirements	2-3
F. Velocity and Pressure Requirements in Mains	2-3

## **Division 2: Water**

### **2.1 Design Criteria-Continued**

G. Looping	2-3
H. Blowoffs	2-4
I. Minimum Depth	2-4
J. Water Main Requirements	2-5
K. Valves	2-6
L. Fire Hydrants	2-7
M. Service Lines	2-8
N. Water Meters	2-10
O. Private Water Systems	2-10
P. Backflow Prevention	2-11
Q. Underground Warning Tape	2-13
R. Mainline Bored Crossings	2-13

### **2.2 Materials**

A. General	2-14
B. Pipe	2-14
C. Fittings	2-14
D. Couplings	2-15
E. Main Line Valves	2-15
F. Service Pipe and Fittings	2-13
G. Water Meter Boxes	2-17
H. Fire Hydrants	2-18
I. Mainline Tapping Tees	2-18
J. Underground Warning Tape	2-18
K. Bore Casings and Accessories	2-18

## **Division 3: Sewer**

**3-1**

### **3.1 Design Criteria**

A. Applicability	3-1
B. General Requirements	3-1
C. Design Basis & Capacity	3-1
D. Pipe Service Area Capacity Requirement	3-2
E. Sewer Horizontal Alignment	3-2
F. Sewer Vertical Alignment	3-4
G. Service Laterals	3-4
H. Manholes	3-5
I. Cleanouts	3-7
J. Underground Warning Tape	3-7

### **3.2 Materials**

A. General	3-8
B. Non-Pressure PVC Pipe	3-8
C. Joints	3-8
D. Pipe Accessories	3-8

## **Division 3 - Sewer**

### **3.2 Materials-continued**

E. Manholes	3-9
F. Manhole Steps	3-9
G. Manhole Grade Rings	3-9
H. Manhole Frame and Cover Assemblies	3-9
I. Mainline Cleanouts	3-9

## **Division 4: Street**

4-1

### **4.1 Design Criteria**

4-1

A. Applicability	4-1
B. General Requirements	4-1
C. Street Classifications and Typical Sections	4-1
D. Surfacing Requirements	4-2
E. Overlays	4-2
F. Horizontal Alignment	4-3
G. Survey Monumentation	4-3
H. Vertical Alignment & Street Grade	4-4
I. Cross Sections and Cross Slopes	4-4
J. Transitions	4-5
K. Curb & Gutter	4-5
L. Sidewalks	4-6
M. Bikeways	4-7
N. Intersections	4-7
O. Driveways (Access)	4-8
P. Cutting Existing Streets	4-9
Q. Private Streets	4-10
R. Street Ends	4-10
S. Illumination	4-11
T. Landscaping/Street Furniture in the Right-Of-Way, Easements, and Access Tracts	4-11
U. Traffic Control	4-12
V. Traffic Calming	4-12
W. Temporary Traffic Control:	4-12
X. Barricades and Guardrails	4-13
Y. Franchise Utilities	4-13
Z. Medians	4-13

### **4.2 Materials**

4-14

A. General	4-14
B. AC Pavement	4-14
C. Granular Baserock	4-14
D. Concrete (Cast-In-Place)	4-14
E. Street Lights	4-14
F. Signage	4-15

<b>Division 5: Stormwater Management</b>	5-1
<b>5.1 Design Criteria</b>	5-1
A. Applicability	5-1
B. General Requirements	5-1
C. Stormwater Quality	5-3
D. Stormwater Quantity	5-4
E. Detention	5-9
F. Stormwater Conveyance	5-12
<b>5.2 Materials</b>	<b>5-18</b>
A. General	5-18
B. Underground Warning Tape	5-18
C. Bore Casings and Accessories	5-18
D. Pipe Size and Materials	5-19
E. Storm Drain Structures	5-21
<b>Division 6: Erosion Control</b>	6-1
<b>6.1 Erosion Control</b>	6-1
A. General	6-1
B. Seasonal Limits	6-2
C. Preservation of Existing Vegetation	6-2
D. Temporary Erosion/Sedimentation Control	6-2
E. Permanent Erosion Control and Vegetation Restoration	6-5
F. 100-Year Flood Plain	6-5
G. Land Alteration Activities on Environmentally Sensitive Lands	6-5
H. Environmental Protection during Construction	6-5
I. Contractor Certification	6-8
J. Site Restoration and Cleanup	6-8
<b>Division 7: Reclaimed Water</b>	
<b>7.1 Design Criteria</b>	7-1
A. Applicability	7-1
B. General Requirements	7-1
C. Reclaimed Water System Capacity	7-2
D. Head Loss Calculation Requirements	7-2
E. Velocity and Pressure Requirements in Mains	7-2
F. Looping	7-3
G. Minimum Depth	7-3
H. Reclaimed Waterline Requirements	7-3
I. Valves	7-5
J. Service Lines	7-5
K. Water Meters	7-6
L. Underground Warning Tape	7-7
M. Mainline Bored Crossings	7-7

<b>7.2 Materials</b>	7-8
A. General	7-8
B. Pipe	7-8
C. Fittings	7-8
D. Couplings	7-9
E. Main Line Valves	7-9
F. Service Pipe and Fittings	7-10
G. Reclaimed Water Meter Boxes	7-11
H. Underground Warning Tape	7-11
I. Bore Casings and Accessories	7-11

## Appendix

### Appendix A – Standard Details

#### General

100 Typical Utility Locations

#### Water

200 OSSC Acceptable Water Standard Drawings

201 Tapping Tee and Valve

202 1 ½” and 2” Water Meter Set with 1” High By-Pass

#### Sewer

300 OSSC Acceptable Sewer Standard Drawings

#### Streets

400 OSSC Acceptable Street Standard Drawings

401 Minimum Local Residential Street Sections

402 Minimum Collector Street Widths

403 Minimum Parkway Collector Widths

411 Traffic Circle

412 Traffic Circle Intersection Diagram

413 Traffic Circle Dimension Chart

414 Speed Cushion

415 22’ Speed Cushion

416 14’ Speed Cushion

417 Speed Cushion Details

421 Commercial Driveway Approach

431 Standard Cul-de-Sac

432 Eyebrow Corner

433 Hammerhead Turnaround- Private Drives Only

434 Intersection Curb Stamping

441 Standard Sidewalk Treewell

442 Curb tight Sidewalk Treewell with Grate

443 Treewell Irrigation

Traffic

- 450 OSSC Acceptable Traffic Standard Drawings
- 451 Street Baricade
- 452 Standard Street Sign
- 453 Standard Light Base
- 461 Traffic Circle Sign Detail 1
- 462 Traffic Circle Sign Detail 2
- 463 Traffic Circle Sign Detail 3
- 464 Traffic Circle Sign Detail 4
- 465 Traffic Circle Sign Detail 5

Storm

- 500 OSSC Acceptable Storm Standard Drawings

Erosion Control

- 600 OSSC Acceptable Erosion Control Standard Drawings

**Appendix B – Standard Construction Notes**

**Appendix C - Utility Companies and Agencies**
