- VI.** Adjournment

**CITY OF DUNDEE**  
**Planning Commission Work Session**  
**April 19, 2023**

**File No.: LURA 2023-02**

**Request:** The purpose of legislative land use regulation amendment (LURA) 2023-02 is to update the Dundee Municipal Code (DMC), Title 17, Development Code, Section 17.203.240, Short-Term Rentals (STR) and Section 17.401, General Review Procedures, Table 17.401.010, Summary of Approvals by Type of Review Procedure.

Substantive and housekeeping amendments are proposed. The primary issue is the adjacency issue where, currently, Standard STRs cannot locate adjacent to an existing Standard STR unless the Planning Commission approves a conditional use permit and an STR application.

This staff report is based on staff research and direction by the Planning Commission and City Council.

<b>Project Information</b>	
<b>Applicant/Owner</b>	City of Dundee.
<b>Location</b>	Residential Low Density (R-1) and Medium Density (R-2) and Agriculture Districts (A).
<b>Tax Lot/Size</b>	Not applicable.
<b>Zoning</b>	R-1, R-2, R-3, and A Districts.
<b>Applicable Criteria</b>	Dundee Municipal Code, Section 17.405.030, Criteria for Map or Code Amendments.
<b>Work Session Date</b>	April 19, 2023

**Public Notice:**

Except for the standard notice provided for a Planning Commission meeting, no additional public notice was provided because the April 19, 2023 Planning Commission meeting is a work session, not a public hearing.

**Background:**

On June 15, 2021 the City Council adopted Ordinance 572-2021 which amended the Vacation Rental process and standards and it was effective July 15, 2021. The term Vacation Rental was changed to Short-Term Rentals (STR) and the process and standards were amended. Since July 15, 2021 staff has identified needed amendments.

Additionally, at the July 20, 2022 Planning Commission hearing regarding STR/CU 2022-10 and the December 6, 2022 City Council hearing on the appeal of STR/CU 2022-10, the Commission and Council each indicated a desire to review the provision regarding a new Standard STR locating next to an existing Standard STR.

### **Organization of This Staff Report:**

Each proposed amendment is listed in the numerical order of the Sections in the Dundee Municipal Code (DMC). The list is at Exhibit A. The proposed amendments are shown in a “mark-up” version of the language at Exhibit B with language proposed to be deleted in [ ~~brackets and strikethrough~~ ] and language to be added in ***bold italics***. A “clean” version of the amendments as they would read if the amendments are adopted is at Exhibit C.

### **Staff Recommendation:**

At the April 19, 2023 work session, the Planning Commission should review and discuss the proposed amendments and give direction to staff regarding the proposed amendments.

**EXHIBIT A**  
**LIST OF THE PROPOSED AMENDMENTS**  
**LURA 2023-02**

The list of proposed amendments is in the order of the STR sections of the DMC.

1. Section 17.203.240, A, Short-term rentals, Applicability. Propose replacing the term “dwelling unit” at two locations with only the two types of dwelling units where STR’s would be allowed, i.e., (1) single family dwelling, detached, and (2) manufactured home on an individual lot or parcel.

Currently, Section 17.203.240, A, states:

*A. Applicability. No person shall occupy, use, operate or manage, nor offer or negotiate to use, lease or rent, a dwelling unit for short-term rental unless issued a STR permit or exempted under this section. The standards of this section shall supersede the standards elsewhere in the development code, unless otherwise stated. This section applies to a dwelling unit in a residential or agriculture (AG) zone built for permanent use. The person(s) renting the STR must rent the dwelling in its entirety for the purpose of overnight lodging to visitors for less than 28 days at any one time. (Emphasis added.)*

Currently, the DMC, 17.501.020, Definitions, defines “dwelling unit” as follows:

*“Dwelling unit” means one or more rooms designed for occupancy by one family and not having more than one cooking facility. “Dwelling unit” includes an individual unit within a manufactured dwelling, but not within a recreational vehicle, a recreational structure, a hotel or motel room, or a campground space.*

The above definition is general and it includes all types (7) of dwelling units, except RV’s, a recreational structure a hotel or motel room or a campground space. It includes:

1. Single family dwelling, detached,
2. Single family dwelling, attached – more commonly referred to as a Townhouse,
3. Manufactured home (on individual lots & in mobile home and manufactured home parks).
4. Accessory dwelling unit,
5. Duplex, and
6. Multi-family (3 or more units on one property),
7. Condominiums.

The above definition of “dwelling unit” and the use of “dwelling unit” in 17.203.240, A, could lead the reader to believe an STR is allowed in any of the 7 types of dwelling units. However, there is an inconsistency because, currently, Section 17.203.240, J, 10, STR Standards, states:

10. *STRs are allowed in any dwelling unit in a residential zone or the agriculture (A) zone except multifamily dwellings and accessory dwelling units. An owner shall not rent out a main house while they live in an accessory dwelling unit. (Emphasis added.)*

The specific issue is Sections 17.203.240, A, and 17.203.240, J, 10, are inconsistent, i.e., 17.203.240, A, appears to say STRs are allowed in all types of dwelling units, except RV's, a recreational structure, a hotel or motel room, or a campground space, but 17.203.240, J, 10, says STRs are allowed in any dwelling unit, except apartments and accessory dwelling units. Subsection J, 10, allows STRs to locate in 5 types of dwellings:

1. Single family dwelling, detached,
2. Single family dwelling, attached – more commonly referred to as a Townhouse,
3. Manufactured home, (on individual lots, & in mobile home and manufactured home parks).
4. ~~Accessory dwelling unit,~~
5. Duplex, and
6. ~~Multi-family (3 or more units on one property),.~~
7. Condominiums.

The general problem is, the inconsistency creates the need to go back and verify the types of dwelling units where STRs can be located - what types of dwelling units does the City want to allow STRs in?

It is not clear that the true intent is to allow an STR in a townhouse. A townhouse is where individual dwelling units are attached, but each dwelling unit is on its own lot. The owner owns the dwelling unit and the land it is located on. It is not clear the City intends to allow an STR in a townhouse where the STR occupants would be only a wall away from the townhouse attached next door which would be occupied by its owner.

QUESTION: Does the City desire to allow STRs in townhouses?

An associated problem is, currently the City allows STRs in duplexes.

Similar to the townhouse issue, above, it is not clear that the true intent is to allow an STR in a duplex. A duplex is where two individual dwelling units are attached and they are both on the same lot. The owner owns the duplex structure with two dwelling units and the land the structure is located on. The occupants of the units do not own their unit nor do they own the land it is located on. It is not clear the City intends to allow an STR in a duplex where the STR occupants would be only a wall away from the duplex unit next door. An STR could be in one duplex unit and a long term renter or the owner of the land and building could be in the second duplex unit.

QUESTION: Does the City desire to allow STRs in duplexes?

Similar to townhouses and duplexes, above, it is not clear that the true intent is to allow an STR in a condominium. Subsection J, 10, currently, does not allow STRs in multifamily dwellings (apartments where there are 3 or more units on one property), thus it would appear J, 10, does not intend to allow STRs in condominiums, but J, 10, is silent about condominiums.

QUESTION: Does the City desire to allow STRs in condominiums?

An associated problem is, currently the City allows STRs in manufactured homes whether they are on individual lots or in Mobile Home Parks or in Manufactured Home Parks.

Staff's understanding of the current language is, STRs are allowed in detached manufactured homes on individual lots and parcels because it would be the same as an STR in a detached stick-built home on an individual lot or parcel.

It is not clear that the true intent is to allow an STR in a manufactured home in a Mobile Home Park or in a Manufactured Home Park.

QUESTION: Does the City desire to allow STRs in manufactured homes in Mobile Home Parks and Manufactured Home Parks?

Once the above questions are answered, the language to be amended into 17.203.240, A, will be known and can be crafted, and the language for Subsection J, 10, will be known and can be created.

In the meantime, the proposed language in the "mark-up" version (Exhibit B) will show STRs allowed only in detached single family dwellings, manufactured homes on individual lots and parcels, and consistent with 17.203.240, J, 10, "an owner shall not rent out a main house while they live in an accessory dwelling unit."

2. Section 17.203.240, C, Short-term rentals, Review Process. This Section creates two types of STRs, i.e., Infrequent STRs and Standard STRs. The difference set forth in C, 1, is "Infrequent STRs are properties that are available for rent fewer than 30 days total per calendar year," whereas a Standard STR is not limited in the number of days it can be rented per year.

It is not clear why there are two types. They both (1) must be reviewed and approved through the Type II process (City Administrator is the decision authority)(see #3 following), (2) must pay the transient room tax, (3) must meet the same approval criteria (E, 1- 3 and J, 1 – 13), (4) could be rented to "problem renters," (5) create an overnight or short-stay rental in a residential neighborhood, (6) an Infrequent STR occupied for 30 consecutive days would be the same as a Standard STR occupied for 30 consecutive days, and (7) the Infrequent STR limit of 30 days in a calendar year is almost impossible to enforce.

Since the STR provisions were effective on July 15, 2021, of the 15 STR applications submitted to the City, no Infrequent STRs have been requested.

Propose simplifying the STR provisions by deleting Infrequent STRs which will leave one type of STR instead of two types. With only one type of STR the numerous inconsistencies and procedural problems noted below related to Infrequent STRs will no longer exist.

To delete Infrequent STRs, the necessary amendments will be made. For example, Section 17.203.240, C, 1, which creates Infrequent STRs would be eliminated and C, 2 and 3, would be renumbered.

Additionally, C, 3, would be amended to delete its reference to the Site Development Review process that requires a Site Plan as part of the application materials (17.402.040, B, 2) and that requires a narrative be included explaining how the approval criteria are met. The STR standards already require a Site Plan be submitted at 17.203.240, C, 3, a, and already require a Narrative be submitted at 17.203.240, C, 3, c.

3. Section 17.203.240, C, 1, Short-term rentals, Review Process, Infrequent STRs. In the event the City desires to retain the 2 types of STRs, i.e., Infrequent and Standard, Section C, 1, a, must be amended to change Infrequent STRs from being processed as a Type I to being processed as a Type II.

Section 17.203.240, E, Approval Criteria, requires Infrequent and Standard STRs to comply with the approval criteria set forth in E, 1 – 3. Criterion E, 1, is subjective which requires the exercise of discretion in determining if Criterion E, 1, is met. Due to the exercise of discretion in making the decision, the review process for an Infrequent STR must be a Type II which includes notice to nearby property owners, the opportunity to comment, and to appeal the decision. Similarly, the applicant would also be afforded the opportunity to appeal the decision where a condition of approval would not be acceptable to the applicant.

The Type I process does not include notice to nearby property owners, the opportunity to comment or to appeal the decision which violates the “due process” clauses of the U.S. and Oregon Constitutions.

Standard STRs do not present a “due process” problem because they are required to be processed as a Type II action which includes notice, the opportunity to comment and to appeal.

4. Section 17.203.240, C, 1, c, Short-term rentals, Review Process, Infrequent STRs. In the event the City desires to retain the 2 types of STRs, i.e., Infrequent and Standard, propose amending Section 17.203.240, C, 1, c. It states an Infrequent STR application must comply with the 13 standards in 17.203.240, J, but it does not mention the STR approval criteria in 17.203.240, E, 1- 3. As now written, it is inconsistent with 17.203.240, E. It should include E, 1 – 3, to ensure an applicant understands the approval criteria in 17.203.240, E, apply. Propose amending C, 1, c, to include the approval criteria in Section 17.203.240, E, 1 – 3, because 17.203.240, E, states, “For both Type I infrequent short-term rentals and Type II short-term rentals the criteria are...” and it lists 3 approval criteria.
5. Section 17.203.240, C, 1, e, Short-term rentals, Review Process, Infrequent STRs. Section 17.203.240, C, 1, e, exempts Infrequent STRs from the citywide 5% concentration limit set forth in 17.203.240, I. In the event the City desires to retain the 2 types of STRs, i.e., Infrequent and Standard, propose amending Section 17.203.240, C, 1, e, to not exempt Infrequent STRs from the 5% concentration limit.
6. Section 17.203.240, C, 3, a, Short-term rentals, Review Process, STR Site Plans. As a housekeeping item, propose deleting the word “actual” because it is an unnecessary word.

Subsection C, 3, a, refers to the Site Plan showing “the actual shape and dimensions of the lot.” It is sufficient to require the Site Plan show the shape and dimensions of the lot. The dimensions are easily available from an Assessor’s Map, a Subdivision or Partition Plat, or other sources such as a metes and bounds description for a property that was not created through a partition or subdivision plat.

7. Section 17.203.240, C, 3, b, Short-term rentals, Review Process, Bedroom Count. Subsection C, 3, b, requires the application include a count of the bedrooms and bathrooms in the dwelling. As a housekeeping item, propose deleting the reference to a “bathroom count.” Unlike the bedroom count which is needed to show compliance with 17.203.240, H, which limits the number of people based on the number of bedrooms, there is no reason to require the number of bathrooms because none of the STR regulations rely on knowing the number of bathrooms.
8. Section 17.203.240, C, 3, c, Short-term rentals, Review Process, Images. Subsection C, 3, c, requires images of the safety features, i.e., smoke detectors, carbon monoxide detectors and fire extinguishers. Then, it states “The images should include the date the image was taken.” The word “should” is permissive and the applicant is not required to provide the date of the images. Where 17.203.240, C, 3, c, requires images to be taken, it is reasonable for the DMC to require the images to be dated. Propose replacing “should” with “shall” to require the images be dated.
9. Section 17.203.240, C, 3, d, Short-term rentals, Review Process, List of Rules (House Rules) for renters. Subsection C, 3, d, requires a “list of rules and requirements for renters” that applicants are required to provide at the time of application. This requirement has resulted in many applicants simply including their own thought-up requirements – sometimes including the provisions of the rental agreement regarding how to reserve an STR – in their “list of rules.” The rental agreement is a separate document from the House Rules, although some items in the House Rules could also be in the rental agreement.

Section 17.203.240, J, 7, STR Standards, Posting of Information, requires the applicant to “keep posted a list of information about the STR adjacent to the front door inside the dwelling.”

*At a minimum, the posting shall include the following information:*

- a. The name and contact information for a local contact person responsible for maintenance and responding to emergencies and/or complaints.*
- b. The current annual STR business license.*
- c. Any requirements for the STR to ensure it complies with this code. (emphasis added)*
- d. The location of any safety equipment including fire extinguishers.*
- e. The maximum number of occupants that was approved by the city.*
- f. A list of the applicant’s requirements for renters of the property (enforceable as part of this permit issuance).*

In addition to 7, a – f, above, Subsections 17.203.240, J, 3, 4, 5, and 6, require compliance with the City’s pet, noise, RV and other temporary shelters, and nuisance standards. The J, 3, 4, 5, and 6, items should be included in the “list of information” otherwise the applicant will not take the time to determine what J, 3, 4, 5 and 6 state and will not put them in the House Rules. The result will be the renters won’t know they are responsible to comply with the City’s pet, noise, RV and other temporary shelters, and nuisance standards.

Section 17.203.240, C, 3, d, must be coordinated with 17.203.240, J, 7, to ensure the “list of rules and requirements for renters” is consistent with 17.203.240, J, 7’s requirements for STRs.

Propose 17.203.240, C, 3, d, be amended to replace the term “list of rules” with “House Rules” and state that the House Rules must list “the applicant’s rules and requirements” and the requirements set forth in 17.203.240, J, 3, 4, 5, 6, and 7, a - e, to ensure the renters know there are City rules to meet in terms of pets, noise, not using RV’s and other temporary shelters during their stay, and nuisances.

If the “House Rules” do not list the City’s rules, the renters won’t know that any such City rules exist. If a problem occurs, the renter’s first statement will be something to the effect of, “The House Rules don’t say anything about the City’s pet, noise, RV and other temporary shelters, and nuisance standards.”

See below for proposed amendments to J, 7, that would be consistent with the above.

10. Section 17.203.240, C, 3, Short-term rentals, Review Process, STR Applications. The STR Application form, #3 at the bottom of page 1 requires a Business License and Transient Room Tax Form be submitted with the STR application, but Subsection C, 3, does not require either application be included with the STR application. The Oregon Land Use Board of Appeals (LUBA) has ruled that an application form for a land use action cannot require items that the local development code does not require. Propose adding a requirement at the amended 17.203.240, C, 2, g, requiring an STR applicant to provide evidence in the STR application that the applicant has initiated the Business License application process and the transient tax registration process.
11. Section 17.203.240, D, Short-term rentals, Written Notice, Type II. Subsection D states, in part, “A Type II written notice consistent with DMC 17.401.030 shall be provided to all neighbors within 200 feet of the property.” It is not clear what “neighbors” means.

As a housekeeping amendment, in the phrase “shall be provided,” propose replacing “provided” with “mailed” to clarify that the Type II notice provided by the City is mailed.

Propose replacing “all neighbors” with the phrase “to the owners and occupants of all properties” to clarify who must be notified.

As a housekeeping amendment, in the phrase “within 200 feet of the property,” propose adding “subject” in front of “property” to clarify the property is the subject property.

12. Section 17.203.240, D, 1, Short-term rentals, Written Notice, Contact Person Information. Subsection D, 1, calls for the Type II notice to include the Contact Person's information, "so that residents may report any problems with the STR as outlined in subsection (K) of this section."

As a housekeeping amendment, in the phrase "so that residents may report," before "residents" propose adding "owners" to clarify that owners can also report problems.

13. Section 17.203.240, E, Short-term rentals, Criteria. In the event the City desires to retain the 2 types of STRs, i.e., Infrequent and Standard, propose deleting the reference to "Type I" and "Type II," and instead refer only to "Infrequent STRs" and "Standard STRs" because both will be reviewed through the Type II process. As in Item 2, above, Section 17.203.240, E, requires Infrequent and Standard STRs to comply with the standards set forth in E, 1, 2 and 3. Criterion E, 1, is subjective, therefore, the review process for an Infrequent STR must be a Type II which includes notice to nearby property owners and the opportunity to comment and to appeal the decision. The Type I process does not include notice to nearby property owners or the opportunity to comment or to appeal the decision.

14. Section 17.203.240, E, 1, Short-term rentals, Criteria. Subsection E, 1, states, in part, "The proposed STR will not present any burden on neighbors to the property." Consistent with #11, above, it is not clear what "neighbors" means. It is not clear how far away the neighbors would be. Propose replacing "any burden on neighbors" with the phrase "any burden on the owners and occupants of properties within 200 feet of the subject property."

The 200 foot distance is consistent with the notice requirement for the mailed notice to owners and occupants within 200 feet of the subject property.

15. Section 17.203.240, E, 1, Short-term rentals, Criteria. Subsection E, 1, states, in part, "Mitigation may be required to the satisfaction of city staff." Propose replacing "may be required to the satisfaction of city staff" with "may be required by the decision authority." Technical code writing need not personalize the provisions by referring to "city staff." It is more appropriate to refer to "the decision authority."

In the event of an appeal of a Ministerial Decision (City Administrator Decision) to the Planning Commission, the term "decision authority" clarifies that the Commission also has the authority to require conditions of approval to mitigate the proposed STR.

16. Section 17.203.240, F, 1, Short-term rentals, Business License and Transient Room Tax. Subsection F, 1, is one sentence. In the event the City desires to retain the 2 types of STRs, i.e., Infrequent and Standard, propose amending the portion of the sentence referring to the Business License and at the end of the sentence where it refers to the Transient Room Tax, to replace "(Type I and Type II)" with "(Infrequent STRs and Standard STRs)" to improve clarity. The terms "Infrequent STRs" and "Standard STRs" are the names of the proposed uses which is clearer and more accurate than the terms Type I and Type II which are merely procedures. The current reference to "Type I and Type II" is inaccurate because, as explained in #3, above, both Infrequent STRs and Standard STRs must be processed as Type II actions.

17. Section 17.203.240, F, 3, Short-term rentals, Business License and Transient Room Tax. Subsection F, 3, states:

*3. An STR permit holder must generate at least \$500.00 in transient room taxes pursuant to Chapter [3.04](#) DMC over any continuous 12-month period; otherwise the STR permit will be void.*

Subsection F, 4, a, also addresses transient room taxes and states:

*4. All business license renewals for STRs shall include:*

*a. Evidence at the time of renewal that all transient room taxes have been paid in full for the previous year.*

In F, 3, the phrase “continuous 12-month period” may appear to some to not be clear, but City staff have commented that the monitoring is a continuous process that City staff perform in accordance with F, 3 and F, 4. No amendments are proposed.

18. Section 17.203.240, F, 4, b, Short-term rentals, Business License Renewal. Subsection F, 4, b, requires, “The owner or property owner...” to provide contact information to neighbors within 200 feet of the STR property. As a housekeeping amendment, the phrase “owner or property owner” is not clear. It is not clear what the first reference to “owner” means. It would appear the property owner would be the responsible party to provide the required annual notice. Propose deleting the first reference to “owner.”

Consistent with #11, above, it is not clear what “neighbors” means. Propose replacing “to neighbors” with the phrase “to the owners and occupants of properties within 200 feet of the STR property.”

To improve clarity, where F, 4, b, requires, “The owner or property owner must annually provide contact information...,” it is not clear what “provide” means. The mailing by the STR owner is not required to be a “notice” such as a notice for a land use application, but instead it is a reminder, or an update if the Local Representative has changed, who the Local Representative is and their contact information. Propose amending the language to read, “The STR owner must annually mail via the U.S. Postal Service the contact information for the Local Representative to the owners and occupants of properties within 200 feet of the STR property. An affidavit shall be provided with the business license renewal application stating such mailing has been sent.”

19. Section 17.203.240, G, Short-term rentals, Limits on Permit Transfer. Subsection G, states that STR permit approvals are valid only for “the current property owner...” The word “current” is not clear, e.g., does it refer to a “current” property owner at any time who just bought the property, or to the owner who was the owner at the time of STR approval, or to an owner at some other time. Propose amending the language to clarify that “the current property owner” refers to the property owner at the time of STR submittal, e.g., “All STR Permit approvals will only be valid for the owner of the subject property at the time the STR application is submitted....”

20. Section 17.203.240, H, Short-term rentals, Overnight Occupancy Limits. Subsection H, sets forth a maximum occupancy limit. It states:

*H. Overnight Occupancy Limits. The maximum overnight occupancy for the STR shall be two persons per bedroom plus two additional persons; however, in no case shall the overnight occupancy exceed 10 persons, regardless of the bedroom count.*

Because Subsection H is a standard that STRs must meet, propose moving it into Subsection J, Standards. Depending on the amendments to Subsection J, it is not known at this time if it would be J, 14, or another number.

21. Section 17.203.240, I, Short-term rentals, Concentration Limits. Subsection I establishes an STR limit of 5% of the number of detached single family dwellings. It exempts Infrequent STRs from the 5% limit which is consistent with Section C, 1, e, which states that Infrequent STRs are exempt from the 5% concentration limit.

Above, it is proposed the Infrequent and Standard STRs be combined to simplify the City's STR provisions and eliminate the several inconsistencies related to the Infrequent STR regulations. The result would be that Infrequent STRs would be included in the 5% limit. However, there have been no Infrequent STR applications submitted, thus there would be no change in the total number of STRs for the 5% limitation.

Section I includes the phrase "exceed five percent of the total number of detached single-family homes in the city,..." To be consistent with language elsewhere in 17.203.240 and with the definitions which use "dwelling" not "homes," propose replacing "detached single-family homes" with "detached single-family dwellings."

The definition of Single-family dwelling is:

*"Dwelling, single-family" means a detached building containing one dwelling unit designed exclusively for occupancy by one family.*

In the last sentence, propose replacing the phrase "the number of residential units" with "the number of detached single family dwellings" to ensure consistency with the first sentence which is proposed to use the term "detached single family dwellings." The term "residential units" is not defined in Section 17.501.020, Definitions, thus it isn't clear what "residential units" means. One could contend it includes RV's, trailers, etc.

As a housekeeping amendment, in the last sentence, propose replacing the phrase "in the city grows" with "in the city increases" because "increases" is the proper word.

The phrase "in the city" is used 3 times. It appears the intention is to say the 5% provision applies within the City Limits, but it doesn't say City Limits, therefore, it is not as clear as it could be.

Propose replacing “in the city” with “in the City Limits” because “City Limits” is clearer, whereas “in the city” might lead one to think areas within the urban growth boundary (UGB), or areas within the City’s ZIP code are included in the 5% figure.

22. Section 17.203.240, J, 7, Short-term rentals, Standards. Posting of Information. Subsection 7 requires a list of information for the renter be posted beside the door on the inside of the dwelling. Consistent with #9, above, propose amending J, 7, to include the term “House Rules” to ensure it is clear the “House Rules” must include J, 3, 4, 5, 6 and 7, a - e, to ensure the renters know there are City rules to meet in terms of pets, noise, not using RV’s and other temporary shelters during their stay, and nuisances.
23. Section 17.203.240, J, 7, c, Short-term rentals, Standards. Posting of Information. Subsection 7, c, requires the list of information to be posted beside the door on the inside of the dwelling to include, “Any requirements for the STR to ensure it complies with this code.” Propose 7, c, be deleted as it is vague and therefore difficult to comply with for the applicant and renter, and difficult for the city to enforce.
24. Section 17.203.240, J, 9, Short-term rentals, Standards. Adjacency to Existing STR. Subsection J, 9, prohibits a new STR from locating adjacent to an existing STR, but it allows the PC to “approve contiguous Type II STR permits as a conditional use permit with criteria as outlined in subsection (H) of this section.” The language refers to the conditional use permit (CUP) and then specifically lists the criteria in Section H (H is s typo, it should be J). It raises the question whether only the STR criteria in J apply because they are specifically mentioned, or if the CUP criteria also apply (17.404.030, A, 1 – 4). Based on the Planning Commission and City Council discussions in 2022 regarding an adjacency STR application, propose clarifying J, 9, by stating the criteria in J and the CUP criteria in 17.404.030 A, 1 – 4, must be met.

Also, propose the typo referring to Section H which is the overnight occupancy limit be changed to refer to Section J which is the STR standards. Above the overnight occupancy limit in H is proposed to be moved to J, 14, because it is a standard that must be met.

25. Section 17.203.240, J, 9, Short-term rentals, Standards. Adjacency to Existing STR. Subsection J, 9, does not allow a new STR to “be located adjacent (contiguous to the property on the same side of the street) to any permitted Type II STR unit.” Based on the Planning Commission (PC) and City Council (CC) discussions in 2022 regarding an adjacency STR application, where the PC and CC expressed a desire for the current adjacency standard to be reviewed, it is proposed that a distance standard of 200, 300, 400 or... feet be adopted.

Adopting a specific distance would be a clear and objective standard. City staff have commented it would create a situation where prospective STR applicants would call City Hall asking if a given property is at least 200, 300 or 400 feet from an existing STR which would require City staff to measure every time someone calls. The typical land use application process calls for the applicant to show their application meets the standards. Typically, applicants review the standards and determine whether their desired action complies with the standards before they submit an application.

In that vein, an approach for the City would be to put the responsibility where it belongs, i.e., with the prospective STR applicant. As is the typical situation at most cities and counties, the prospective STR applicant would be charged with measuring the distance. They could do it themselves if they are familiar with Assessor's Maps, or other suitable maps, or hire a competent professional such as a title company or a surveyor or any consultant with computer assisted drafting (CAD) or geographic information system (GIS) software to measure the distance for any property the prospective STR applicant is interested in.

The prospective applicants for an STR application stand to earn significant funds from purchasing an investment property, thus they are responsible to determine if they want to purchase a given property. Typically, when a land use approval is required, developers and land investors buy an "option" on the property, then they apply for the land use approvals and once the approvals are achieved, they close on the option.

In most cities and counties the local zoning code requires the applicant for a land use application to submit the names and addresses for all owners of properties within a specified distance of the subject property. The city or county creates the required notice and uses the list prepared by the applicant to mail the required land use notice to the owners. The applicants prepare the owners and addresses themselves if they are familiar with Assessor's Maps, or other suitable maps, or they hire a competent professional such as a title company or a surveyor or any consultant with computer assisted drafting (CAD) or geographic information system (GIS) software to measure the distance and gather the owner names and addresses.

The City of Dundee is under no obligation to measure the distance for every miscellaneous telephonic or email inquiry about a prospective STR application.

The City should have a list of the existing STRs with their addresses, and possibly their Assessor's Map number and Tax Lot number, to give to prospective STR applicants so they would know where the existing STRs are located.

The current language allows STRs to abut one another with PC approval. It also allows STRs that are not abutting to be on alternating lots on each side of the same street which can result in several STRs in close proximity to one another. In the 2022 STR case, the STRs in the area created a situation where there were a few in close proximity to one another which was troubling for the PC and CC.

It would appear a clear and objective distance such as 200, 300 or 400 feet would suffice and could be reviewed within the Type II process.

Section 17.203.240, E, 1, is a subjective criterion that, currently, is part of the review and approval process. It states:

*E. Criteria. For both Type I infrequent short-term rentals and Type II short-term rentals the criteria are:*

1. The proposed STR will not present any burden on neighbors to the property. Any mitigations added to address concerns have been included as requirements of the permit. Mitigation may be required to the satisfaction of city staff. (Emphasis added.)

2. The applicant has applied for a business license.

3. All standards from subsection (J) of this section have been met.

As above, it is not clear what “neighbors” means. The current process requires a public hearing before the PC which must review and address the Conditional Use Permit approval criteria which were formulated in terms of a list of conditional uses, not in terms of an STR locating in a residential neighborhood. The current process requires two decisions be made, i.e., a Conditional Use Permit and a Short Term Rental application.

26. Section 17.203.240, J, 10, Short-term rentals, Standards. Subsection 10 states:

*10. STRs are allowed in any dwelling unit in a residential zone or the agriculture (A) zone except multifamily dwellings and accessory dwelling units. An owner shall not rent out a main house while they live in an accessory dwelling unit.*

As addressed in #1, above, propose replacing the term “dwelling unit” at two locations with only the two types of dwelling units where STR’s would be allowed, i.e., (1) single family dwelling, detached, and (2) manufactured home on an individual lot or parcel.

As discussed in #1, the term “dwelling unit” includes 7 types of dwellings and Subsection J, 10, excepts only two types of dwellings, i.e., multifamily dwellings and accessory dwelling units. Thus, 5 types of dwellings are now allowed to be STRs. As in #1, they are (the same list as in #1):

1. Single family dwelling, detached,
2. Single family dwelling, attached – more commonly referred to as a Townhouse,
3. Manufactured home, (on individual lots, & in mobile home and manufactured home parks).
4. ~~Accessory dwelling unit,~~
5. Duplex, and
6. ~~Multi-family (3 or more units on one property),~~
7. Condominiums.

#1 goes on to discuss why STRs should not be allowed in “Single family dwelling, attached,” or in Mobile and Manufactured homes in parks, or in duplexes and condominiums.

27. Section 17.203.240, J, 11, Short-term rentals, Standards. Designate a Local Representative. Subsection J, 11, states, in part, “For all Type II STRs, the property owner shall designate a local representative....” Above, the amendments propose deleting the references to Type I to identify Infrequent STRs, and Type II to identify Standard STRs, and instead simply refer to Infrequent STRs and Standard STRs. Therefore, the reference to “Type II” is proposed to be changed to “Standard STRs.”

In the event the City desires to retain the 2 types of STRs, i.e., Infrequent and Standard, propose that Infrequent STRs must be reviewed through the Type II process because at least one of the approval criteria is subjective, therefore, J, 11, must be amended to include Infrequent STRs.

Currently, Infrequent STRs are not required to designate a Local Representative and provide their name and contact information to owners and occupants within 200 feet of the subject property. It is proposed that Infrequent STRs be required to designate a Local Representative and provide their name and contact information to owners and occupants within 200 feet of the subject property because an Infrequent STR can experience disruptive behavior the same as a Standard STR.

The new language would read, "For Infrequent and Standard STRs, the property owner shall designate a local representative...."

28. Section 17.203.240, J, 11, Short-term rentals, Standards. Designate a Local Representative. Propose language that clarifies that a local representative must provide 24 hour phone coverage for week days, weekends, and holidays. The current language requires that the office be "physically staffed," but it does not require the local representative provide 24 hour phone coverage for week days, weekends, and holidays. It is likely that a neighbor would call the Local Representative on a weekday evening, on the weekend or on a holiday.

Additionally, propose removing language that states the local representative must be "authorized to respond," and instead simply state that the local representative is "required to respond to" tenant or neighborhood questions or immediate concerns.

29. Section 17.203.240, J, 11, Short-term rentals, Standards. Subsection J, 11, requires the Local Representative to be located within the Dundee UGB or within 10 vehicle miles of the UGB. Recently, an application was submitted to re-new an existing STR under a new owner. An STR approval goes with the owner, not with the land (17.203.240, G), thus when an owner sells the property and the new owner wants to continue the STR, a new STR application must be submitted and approved under the new owner.

In the recent case, the prior owner's Local Representative was within 10 vehicle miles, but the new owner was associated with a different STR company and the Local Representative was 12 to 13 miles away in McMinnville. The Local Representative's email follows and asks that the 10 mile distance be increased.

*Planning Commission Team,*

*Hi. I am writing in request to please increase the Dundee standard minimum mileage requirement for a local representative to obtain a permit for a homeowner who is wanting to apply for a permit for their short term vacation rental. The current minimum requirement is 10 miles. I am the local representative for Wine Country Vacasa LLC short term vacation rentals that resides in McMinnville. I live at 132 SW Cypress Street McMinnville Or 97128 and I work from this address as well. Due to my address being 12 miles away and 2 miles over the Dundee urban growth area it has created challenges in being able to qualify as an acting representative and obtain a permit for some of our homeowners who also live outside of the 10 mile minimum requirement. Increasing the minimum requirement to 14-15 miles would*

*allow our homeowners to utilize our Vacasa LLC Dundee local representative to qualify as a permitted representative for their short term vacation rental. Increasing the minimum requirement to 14 to 15 miles is still close enough to respond and act in a required timely manner if any issues were to arise at the Dundee short term vacation rentals. If you would please take all this into consideration we would greatly appreciate it.*

*Best Regards, Crystal Elias*

It is not clear why a 10 mile distance was selected, but “10” is a round number and is often used in regulatory systems. As a functional issue, it would appear the maximum distance should be far enough to include McMinnville given the City is Yamhill County’s largest city and likely could be the location of many of the Local Representatives for Dundee STRs.

30. Section 17.401.010, General Review Procedures, Table 17401.010, Summary of Approvals by Type of view Procedure. Propose deleting the entry for Infrequent STRs as a Type I action due to the above recommendation to combine the Infrequent and Standard STRs. The existing entry for STRs as a Type II would be retained.

**EXHIBIT B**  
**“MARK-UP” COPY OF THE PROPOSED AMENDMENTS**  
**LURA 2023-02**

The proposed amendments are shown in [ ~~brackets and strikethrough~~ ] for language to be deleted and in ***bold italics*** for language to be added. The proposed amendments are in the numerical order of the STR sections in the DMC.

**17.203.240 Short-term rentals.**

All short-term rentals (STRs) shall conform to the following standards:

- A. Applicability. No person shall occupy, use, operate or manage, nor offer or negotiate to use, lease or rent, a [ ~~dwelling unit~~ ] ***detached single-family dwelling or a manufactured home on an individual parcel or lot (not in a mobile home park or manufactured home park)*** for short-term rental (***STR***) unless issued a STR permit or exempted under this section. The standards of this section shall supersede the standards elsewhere in the development code, unless otherwise stated. This section applies to a [ ~~dwelling unit~~ ] ***detached single-family dwelling or a manufactured home on an individual parcel or lot (not in a mobile home park or manufactured home park)*** in a residential (***R-1, R-2***) or agriculture (AG) zone built for permanent use. The person(s) renting the STR must rent the dwelling in its entirety for the purpose of overnight lodging to visitors for less than 28 days at any one time.
- B. Purpose. The purpose of this section is to provide a process and standards for allowing STRs [ ~~units~~ ] while mitigating possible impacts to neighbors. STRs are not considered home occupations.
- C. Review Process. [ ~~There are two types of short term rentals;~~ ]  
[ ~~1. Infrequent STRs are properties that are available for rent fewer than 30 days total per calendar year. These are:~~  
a. ~~Processed as a Type I application.~~  
b. ~~Required to comply with the notice requirement listed in subsection (D)(1) of this section.~~  
c. ~~Required to comply with all the standards listed in subsection (J) of this section.~~  
d. ~~Limited to no more than four rental periods per calendar year (cumulatively no more than 30 days per calendar year). For purposes of this section, a rental period means a range of continuous days.~~  
e. ~~Exempt from the concentration limits for STRs in subsection (I) of this section. ]~~
- [ ~~2~~ ] 1. [ ~~Standard~~ ] STRs shall be processed as a Type II application.
- [ ~~3~~ ] 2. [ ~~All~~ ] STR applications must include [ ~~(this supersedes the requirements of DMC [17.402.040](#), except DMC [17.402.040](#)(B)(2) and (7));~~ ]
- a. A site plan drawn to scale, which indicates the following: the ~~actual~~ shape and dimensions of the lot, sizes and locations of buildings and off-street parking spaces (existing and proposed).

b. ~~[ In addition to the site plan, a ]~~ A floor plan(s) must be included which clearly indicates:

~~i. [ t ]~~ The intended use of all interior areas **by guests including, but not limited to** ~~[ (e.g., ]~~  
bedrooms, kitchen, living room, **and** storage; ~~[ , etc.) by guests and ]~~

~~ii. [ l ]~~ Locations of smoke detectors, carbon monoxide detectors, and fire extinguisher(s).

~~[ b ]~~ c. Bedroom and bathroom counts **to determine the occupancy requirement in Section 17.203.240, J, 14.**

~~[ e ]~~ d. Images **with the date each image was taken** of the following required safety features:

~~i. [ s ]~~ Smoke detectors,

~~ii. [ c ]~~ Carbon monoxide detectors, and

~~iii. [ f ]~~ Fire extinguishers. ~~The images should include the date the image was taken.~~

~~[ d ]~~ e. **The House Rules which shall include a** ~~[ A ]~~ list of the applicant's rules and requirements for renters **including, but not limited to;**

**i. The standards in Section 17.203.240, J, 3, regarding pets, J, 4, regarding noise, and J, 5, prohibiting the premises of the STR from including any occupied recreational vehicle, trailer, tent, or other temporary shelter during the rental occupancy, and prohibiting tents, including event tents.**

**ii. The name and contact information for a local contact person, Local Representative, responsible for maintenance and responding to emergencies and/or complaints.**

**iii. The maximum number of occupants approved by the city in the STR decision.**

f. If the STR is approved the House Rules shall be a requirement of the permit.

~~[ e ]~~ g. A **written** narrative explaining how the **approval criteria in Section 17.203.240, E, 1 - 3, and the standards** ~~[ below and the criteria from DMC [17.402.050](#), are met (for infrequent STRs the criteria from DMC [17.401.020\(C\)](#) pertain) ]~~ **in Section 17.203.240, J, 1 – 14, are met.**

**g. Evidence that a Business License application and transient tax registration has been submitted to the City.**

D. Notice. A Type II written notice consistent with DMC [17.401.030](#), **General Review Procedures for Type II procedure**, shall be provided to all ~~neighbors~~ **owners and occupants of properties** within 200 feet of the **subject** property. The notice shall contain ~~[ all of ]~~ the following information:

1. The name, address, and telephone number of a local contact person (***the Local Representative***) responsible for maintenance and responding to emergencies, so that residents may report any problems with the STR as [ outlined ] ***set forth*** in [ ~~subsection (K) of this s~~ ] **Section 17.203.240, K.**
  2. [ All other ] **The** requirements of DMC [17.401.030](#) [ ~~(B)(3)~~ ], **B, 3, General Review Procedures, Type II procedure.**
- E. Criteria. [ ~~For both Type I infrequent short-term rentals and Type II standard short-term rentals t~~ ] **The approval** criteria are:
1. The proposed STR will not present any burden on [ ~~neighbors to the~~ ] ***the owners and occupants of properties within 200 feet of the subject*** property. [ ~~Any mitigations added to address concerns have been included as requirements of the permit. Mitigation may be required to the satisfaction of city staff. ] ***The STR permit applicant shall address any concerns identified through the application review process. The city may require actions to address these concerns as a condition of approval for the STR permit.***~~
  2. The applicant has applied for a business license **and provided transient room tax materials.**
  3. [ All ] **The** standards [ ~~from subsection (J) of this section~~ ] **in Section 17.203.240, J, 1 – 14,** have been met.
- F. Business License and Transient Room Tax.
1. The **STR** owner [ ~~of the STR~~ ] shall obtain and annually renew a business license pursuant to DMC [5.04](#), Business License , with the City of Dundee and shall comply with DMC [3.04](#), Revenue and Finance, Transient Room Tax (Type I and Type II) ].
  2. The **STR** owner [ ~~of the STR~~ ] shall renew the business license and remit payment of the business license fee by April 1st of any year, otherwise the STR permit will be void.
  3. An STR permit holder must generate at least \$500.00 in transient room taxes pursuant to Chapter [3.04](#) DMC over any [ ~~continuous 12-month period;~~ ] **calendar year,** otherwise the STR permit will be void.
  4. All business license renewals for STRs shall include:
    - a. Evidence at the time of renewal that all transient room taxes have been paid in full for the previous **calendar** year.
    - b. The **STR** owner [ ~~or property owner of the STR~~ ] must annually [ ~~provide~~ ] **mail via the U.S. Postal Service the** contact information **for the Local Representative** to [ ~~neighbors~~ ] **the owners and occupants of properties** within 200 feet of the STR property [ ~~, including an emergency contact other than the property owner~~ ]. An affidavit shall be provided with the business license renewal application stating such mailing has been sent.

c. The [ ~~applicant~~ ] **STR owner** shall provide a log of complaints to the city annually with the business license renewal. This shall include issues received/reported by the property owner or manager and all nuisance issues that were addressed by the police. The log must explain how each complaint was addressed.

G. Limits on Permit Transfer. All STR permit approvals will only be valid for the [ ~~current property~~ ] owner **of the subject property at the time the STR application is submitted** (not including transfers to trusts, LLCs, divorces or similar changes in names, but not ownership). Any sale of the property will automatically invalidate the STR permit.

~~H. Overnight Occupancy Limits. The maximum overnight occupancy for the STR shall be two persons per bedroom plus two additional persons; however, in no case shall the overnight occupancy exceed 10 persons, regardless of the bedroom count.~~

[ ~~†~~ ] **H. Concentration Limits.** At no point shall the number of STR permits in the ~~city~~ **City Limits** exceed five percent of the total number of detached single-family homes **dwelling and manufactured homes on an individual parcel or lot (not in a mobile home park or manufactured home park)** in the ~~city~~ **City Limits**, calculated at the time the [ ~~permit is issued~~ ] **application is submitted. The calculation for the total number of detached single-family dwelling and manufactured homes on an individual parcel or lot (not in a mobile home park or manufactured home park) shall include dwellings with a certificate of occupancy or final inspection.** [ ~~Infrequent STRs are exempt and do not contribute to the city wide total.~~ ] An [ ~~∇~~ ] STR renewal is not required to demonstrate that they are within the five percent limit. Should the city reach the five percent limit, no new STR permits shall be issued until a sufficient number of previous STR permits do not renew or the number of ~~residential units~~ **single family detached dwelling and manufactured homes on an individual parcel or lot (not in a mobile home park or manufactured home park)** in the city [ ~~grows~~ ] **increases** to the point where there is less than five percent.

J. Standards.

1. Parking. At least two off-street parking spaces located on the property must be provided. In addition, one STR parking space may be on-street. All overnight and visiting guests must park in designated parking areas (as shown on the site plan) **or on the on-street parking space.** No unauthorized on-street parking is permitted.
2. Trash, **Yard Debris** and Recycling Facilities. The owner shall provide for and maintain regular trash, **yard debris and recycling** collection. Available ~~carts~~ **bins** must have adequate capacity for the renters, and no uncontained garbage is allowed on the site.
3. Pets. Pets shall comply with DMC Title [6](#), **Animals.**
4. Noise Limits. All activities associated with the STR shall comply with the noise standards in DMC [8.28 Noise](#) and enforced per DMC 9.28.070 **Enforcement.** ~~Any violations are to be considered nuisance violations and~~

5. RVs and Other Temporary Shelters. The premises of the STR may not include any occupied recreational vehicle, trailer, tent, or other temporary shelter during the rental occupancy. Tents, including event tents, are not permitted.
6. Nuisances. All activities associated with the STR shall not cause a nuisance as defined in Chapter [8.16](#) DMC Nuisances. **Nuisance enforcement shall occur per DMC 8.16 et seq. Nuisances.**
7. Posting of Information. The applicant shall keep posted a list of information about the STR adjacent to the front door inside the dwelling. At a minimum, the posting shall include the following information:
  - a. The name and contact information for a local contact person responsible for maintenance and responding to emergencies and/or complaints.
  - b. The current annual STR business license.
  - ~~[ c. Any requirements for the STR to ensure it complies with this code. ]~~
  - ~~[ d ]~~ c. The location of any safety equipment including fire extinguishers.
  - ~~[ e ]~~ d. The maximum number of occupants that was approved by the city.
  - ~~[ f. A list of the applicant's requirements for renters of the property (enforceable as part of this permit issuance). ]~~
8. Guest Register. The owner or property manager shall maintain a guest register listing each tenant of the STR ~~[ along with ]~~ **and** the number of dwelling occupancy days consistent with DMC 3.04.150, **Transient room Tax; Records Exempt from Disclosure.**
9. No STR shall be located within 200, 300, 400 feet of any other STR. ~~[ No Type II STR shall be located adjacent (contiguous to the property on the same side of the street) to any permitted Type II **Standard** STR unit. The planning commission may approve contiguous Type II **Standard** STR permits as a conditional use permit with criteria as outlined in subsection (H) **E** of this section. ]~~
10. STRs **are allowed in detached single family dwellings and manufactured homes on an individual parcel or lot (not in a mobile home park or manufactured home park)** ~~allowed in any dwelling unit~~ in a residential zone (**R-1, R-2, R-3**) or the agriculture (A) zone ~~except multifamily dwellings and accessory dwelling units~~. An owner shall not rent out a main house while they live in an accessory dwelling unit.
11. ~~[ For all Type II STRs, t ]~~ **The [ property ] STR owner shall designate in the business license and renewal thereof** a local representative that is physically located within the Dundee urban growth boundary (UGB) or within 10 vehicular miles of the UGB. Said representative can be a property owner or a licensed property management company with a physically staffed office

within 10 vehicular miles of the UGB. The owner may be the designated representative if the owner resides within these stated limits.

The local representative must ~~be authorized by the owner of the dwelling to~~ respond to the tenant and neighborhood questions or immediate concerns. The local representative shall serve as the initial contact person if there are questions or complaints regarding the operation of the STR, including immediate complaints. The local representative must respond to complaints in a timely manner to ensure the dwelling complies with the standards for STRs and other city ordinances pertaining to, but not limited to, noise, disturbances, nuisances, ~~[ as well as ]~~ **and** state laws pertaining to the consumption of alcohol, or the use of illegal drugs, or other illegal activities.

12. No person or principal shall possess more than one STR permit pursuant to this chapter.

13. Smoke detectors are required in all sleeping areas, the hallway serving them, and every floor. Carbon monoxide detectors shall be located in each bedroom or within 15 feet of each bedroom door. Bedrooms on separate floor levels in a structure shall have separate carbon monoxide alarms serving each story. A fire extinguisher having a minimum rating of 2:A 10:BC must be mounted three to four feet above the floor in the kitchen area approximately five to 10 feet from the cooking stove.

**14. [ H ] Overnight Occupancy Limits.** The maximum overnight occupancy for the STR shall be two persons per bedroom plus two additional persons; however, in no case shall the overnight occupancy exceed 10 persons, regardless of the bedroom count.

#### K. Complaints and Permit Revocation.

1. Immediate Complaints. Immediate complaints are those made directly to the STR representative and/or the fire or police department. These are not intended to be reported to City Hall. The process identified in this subsection (K)(1) is separate from the process identified in subsection (K)(2) of this section. Any complaint made to both the STR representative and the city will follow both processes identified in this subsection (K)(1) and subsection (K)(2) of this section.

a. All immediate complaints shall go to the property owner or property manager. The property owner or property manager is required to address any immediate complaints while the offending renter is still on site. Any emergencies should be reported to police and/or the fire department first.

b. Any unresolved complaints that are not addressed by the property owner or property manager shall be addressed by the local police department as a nuisance complaint.

c. The applicant shall provide a log of complaints to the city annually with the business license renewal. This shall include issues addressed by the property owner or manager and all nuisance issues that were addressed by the police.

- d. Where complaints are persistent and recurring such that they have a detrimental effect to the quiet enjoyment of the adjoining residents, as determined by the city administrator, the city administrator may schedule a hearing before the planning commission to consider adding additional conditions for mitigation or revoking the short-term rental permit. The owner may appeal the planning commission decision to the city council.
2. Standards Violations. Any complaints about a violation of the standards listed in subsection (J) of this section shall be reported to the city. The city shall notify the property owner in writing of any corrective action necessary to correct the violation, and the owner shall have 30 days to correct the identified issue. If the city receives three or more complaints about violations of the standards listed in subsection (J) of this section within a 12-month period, the city administrator shall schedule a hearing before the planning commission to consider adding additional conditions for mitigation or revoking the short-term rental permit. The owner may appeal the planning commission decision to the city council. Any revocation of an STR permit shall last at least one year before an applicant can reapply for an STR. Any [ ~~new~~ ] *re*-application to reinstate the STR shall be [ ~~treated~~ ] processed as [ ~~an all~~ ] *a* new application.
